Grade 9 Academic Report

Academic Year 2026 · Current position based on finalised assessment evidence

Executive Summary

Grade 9 achieved a current academic average of **72.08%** across **6 subjects**. Most subjects are currently above their first recorded assessment average for the year. **Afrikaans First Additional Language** recorded the largest positive first-to-current movement at **+10.83 pp**.

Natural Sciences warrants attention in the current evidence, moving from **72.50%** in its first recorded assessment to **62.08%** currently. **Luke Daniels and Bokang Mokoena** are currently below the success threshold in more than one subject and should be considered in the school's academic support discussion.

72.08% CURRENT GRADE AVERAGE	**6** SUBJECTS
6 LEARNERS	**2** CROSS-SUBJECT ATTENTION

Academic Observations

Strongest current performance

Life Orientation currently has the highest subject average at **84.58%**.

Strongest positive movement

Afrikaans First Additional Language shows the largest first-to-current movement at **+10.83 pp**.

Current area for attention

Natural Sciences (72.50% → 62.08%)

Cross-subject learner signal

2 learners are currently below threshold across the same subjects: Natural Sciences and Social Sciences.

Subject Performance

SUBJECT	ASSESSMENT JOURNEY	CURRENT	MOVEMENT	BELOW THRESHO
Mathematics	Term 1 **64.58%** → Term 2 **62.50%** → Term 3 **72.50%**	**72.50%**	**+7.92 pp**	0
English Home Language	Term 1 **72.50%** → Term 2 **75.00%** → Term 3 **77.50%**	**77.50%**	**+5.00 pp**	0
Afrikaans First Additional Language	Term 1 **57.92%** → Term 2 **62.08%** → Term 3 **68.75%**	**68.75%**	**+10.83 pp**	0
Life Orientation	Term 1 **81.25%** → Term 2 **82.92%** → Term 3 **84.58%**	**84.58%**	**+3.33 pp**	0
Natural Sciences	Term 1 **72.50%** → Term 2 **70.00%** → Term 3 **62.08%**	**62.08%**	**-10.42 pp**	**2**
Social Sciences	Term 1 **66.25%** → Term 2 **67.08%** → Term 3 **67.08%**	**67.08%**	**+0.83 pp**	**2**

Subject Analysis

Mathematics 72.50%

Mathematics currently has an average of **72.50%**. This is +7.92 pp above its first recorded assessment average of **64.58%**. No learner is currently below the subject's success threshold.

CONCEPT PERFORMANCE

Factorisation increased from 48.33% to 80.00%, a movement of +31.67 pp. **48.33% → 80.00%** (3 assessments).

Linear Equations remained at 70.00% across the recorded assessment sequence. **70.00% → 70.00%** (3 assessments).

Fractions returned to 80.00% after moving as low as 60.00% during the assessment sequence. **80.00% → 80.00%** (3 assessments).

Exponents remained at 60.00% across the recorded assessment sequence. **60.00% → 60.00%** (3 assessments).

Concept observations are calculated from teacher-finalised question-level evidence. They describe measured performance only and do not infer a cause.

English Home Language 77.50%

English Home Language currently has an average of **77.50%**. This is +5.00 pp above its first recorded assessment average of **72.50%**. No learner is currently below the subject's success threshold.

Afrikaans First Additional Language 68.75%

Afrikaans First Additional Language currently has an average of **68.75%**. This is +10.83 pp above its first recorded assessment average of **57.92%**. No learner is currently below the subject's success threshold.

Life Orientation 84.58%

Life Orientation currently has an average of **84.58%**. This is +3.33 pp above its first recorded assessment average of **81.25%**. No learner is currently below the subject's success threshold.

Natural Sciences 62.08%

Natural Sciences currently has an average of **62.08%**. This is -10.42 pp relative to its first recorded assessment average of **72.50%**. **2 learners are currently below the subject's success threshold.**

Social Sciences 67.08%

Social Sciences currently has an average of **67.08%**. This is +0.83 pp above its first recorded assessment average of **66.25%**. **2 learners are currently below the subject's success threshold.**

Learners Requiring Attention

2 learners are currently below the success threshold in more than one subject. Both learners share the same current areas of concern: **Natural Sciences and Social Sciences**. This pattern is presented for discussion with the relevant teachers; no cause is inferred.

LEARNER	CURRENT OVERALL	SUBJECTS BELOW THRESHOLD
Luke Daniels	57.50%	Natural Sciences **45.00%** Social Sciences **42.50%**
Bokang Mokoena	60.00%	Natural Sciences **47.50%** Social Sciences **45.00%**

Evidence basis: This report summarises 18 finalised assessments across 6 subjects and 6 learners. Only teacher-finalised results are included. Movement represents the numerical difference between the first and latest recorded subject averages. Cross-subject signals are observational and do not infer cause. Academic interpretation and intervention decisions remain with the school.
